

ChatSphere

MERN Stack Real-Time Chat Web Application

React.js

Node.js

Express.js

MongoDB

JWT

Socket.IO

Project Overview

ChatSphere is a real-time chat web application developed using the MERN stack. The system supports user registration, login, contact sidebar, online/offline presence, instant message updates, image messages, message edit/delete, profile settings, theme switching, and secure authentication using JWT.

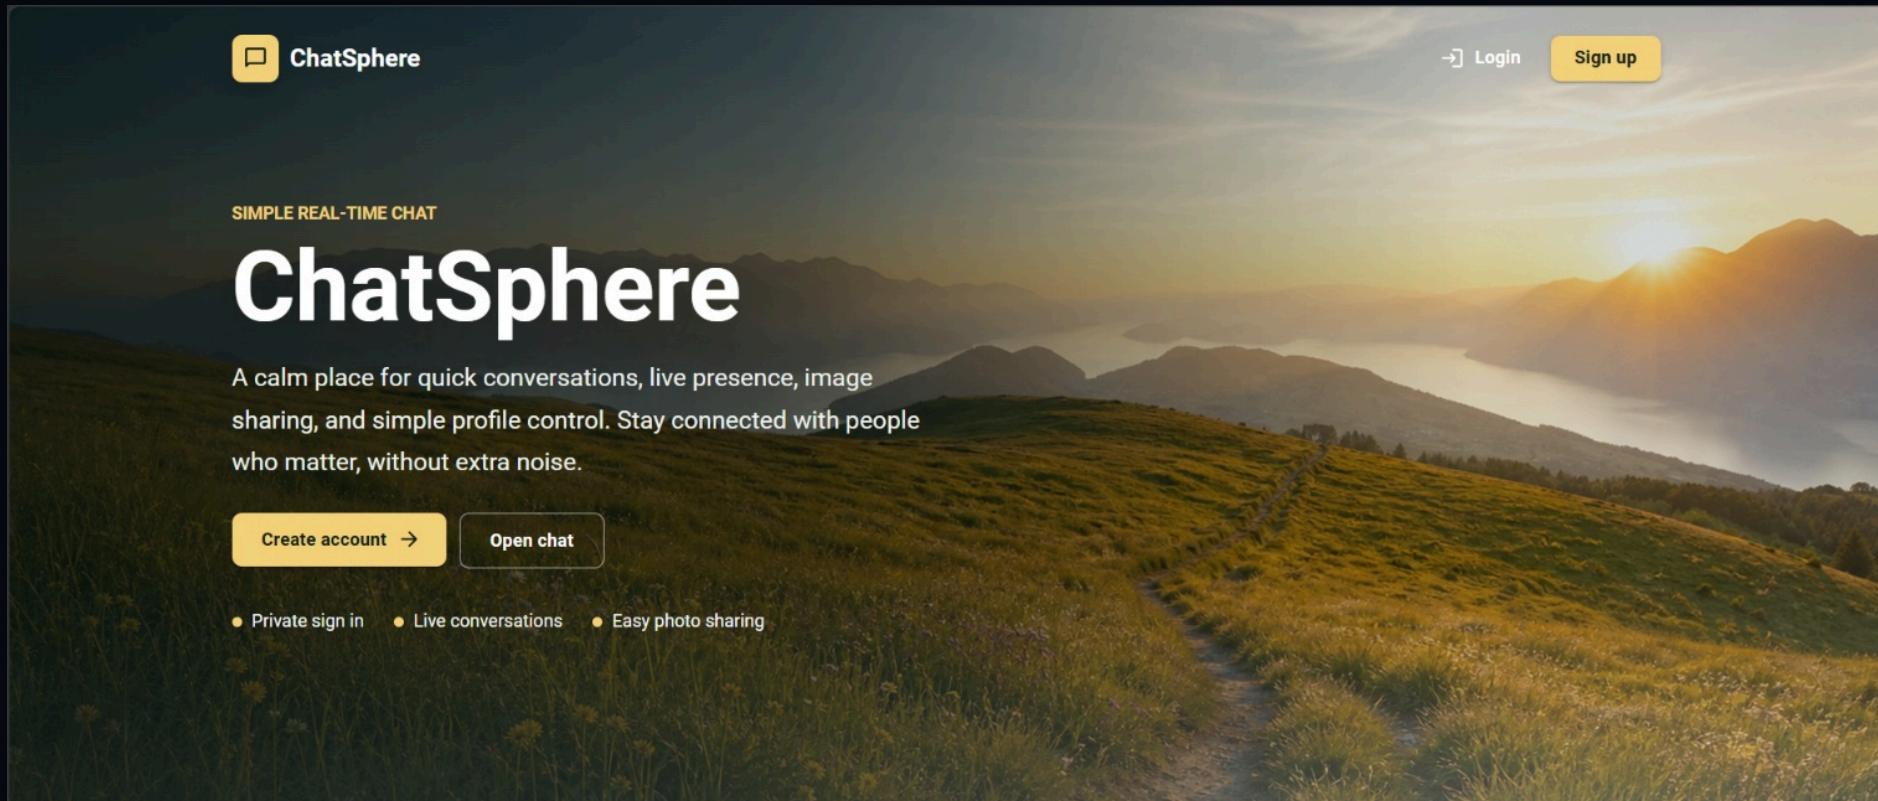

Screens Included

- Login screen
- Sign up screen
- Chat dashboard with contact sidebar
- Real-time messaging and image sharing
- Profile settings and theme controls

00. Landing Page
